

THE POWER TO KEEP YOU GOING

PPS

PORTABLE
POWER SUPPLY

The latest development from SKYLOTEC is the Portable Power Supply (PPS), specifically designed for our ActSafe ACX and ACCII Ascenders.

Expand your working schedule and work even more efficiently at height with the nearly unlimited power of the PPS

The easy-to-install PPS delivers stable and dependable power to your ActSafe ACX or ACCII Ascender.

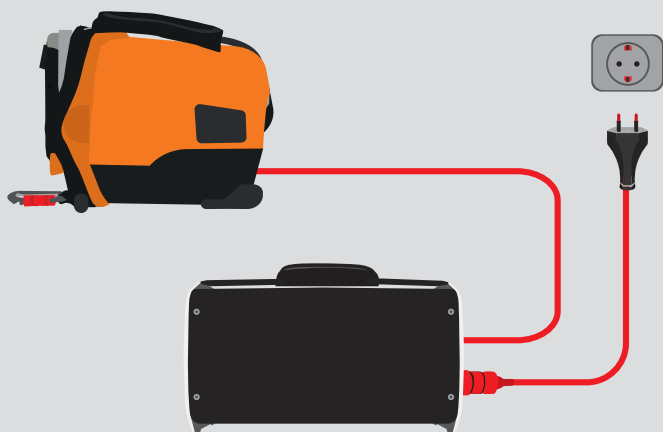

It's simple to work smarter with the Portable Power Supply.

- ✓ Longer lifting distances
- ✓ Easy set-up and handling
- ✓ Greater system versatility

HAND-BUILT
IN SWEDEN

Dependable power for lifting without compromise

The SKYLOTEC Power Ascender System

The ActSafe Ascender and Power Supply form a fast and versatile system for lifting people or equipment with the Ascender operated from a fixed position.

It couldn't be more simple:

- 1 Plug in the Power Supply
- 2 Connect it to the Ascender
- 3 You are ready to go

Possible applications

Scenario 1

Using the Power Supply in wind turbines, you:

- Can perform multiple lifts
- Can do work for longer
- Get an even more reliable power source
- Only have to bring batteries as back-up
- Can shorten your working time

Scenario 2

Using the Power Supply in a rescue situation, you:

- Have easy set-up and handling
- Can perform longer, more frequent lifts
- Have a back-up power source in your lifting system
- Can rescue more people in less time

Technical information

Input	230 V, 50-60 Hz, 10 A
Output	48 VDC, 50 A
Weight	8 kg
Dimensions	42 x 24 x 16 cm
Protection classification	IP 55
Operation temperature range	-20 °C to +40 °C
Ascender cable length	3 m
Mains cable length	2.2 m
Speed on ACX / ACCII connected to power supply	25 m/min. with 120 kg load
